Introduction

At Hearten Home Interiors, we design thoughtful, elevated interiors that feel warm, collected, and deeply personal. We believe a home should tell your story, layering timeless pieces, natural elements, and intentional details that support the way you live every day. The result is a home that feels refined without ever feeling too formal, and beautiful without sacrificing comfort.

HEARTEN HOME INTERIORS

“I can't begin to sing Bonnie and Tripp Roden's praises enough! They took a basic bathroom and transformed it into a Ralph Lauren-style showstopper. The project, from start to finish, was absolutely seamless. Andy and I repeatedly commented about how quick and painless the process was. This is largely because Bonnie and Tripp are super organized, communicate regularly, manage each step, and have a terrific team of expert plumbers, electricians, carpenters, flooring specialists. They also honored our budget, which was a big plus. I already have my next remodeling project planned with Hearten Home Interiors!”

Our Services

Design Concierge Full Service Design

Our Signature Design Concierge is our all-inclusive interior design experience for clients planning a new construction project or reimagining an existing property. Our team handles every detail, beginning with conceptualization all the way to white glove installation. The entire process is thoughtfully designed to guide busy families and professionals to their best life at home.

Imagine this...

Your dream home, flawlessly executed by a design team working behind the scenes to handle every detail. With exclusive insider resources and an efficient plan, expect to receive timeless design, expertly curated for you. Through mood boards, sampling, and architectural renderings, your vision takes shape before a single decision is made. Targeted meetings and site visits keep you involved without the overwhelm, while our team ensures every element is perfectly executed.

Our Process

Phase One	We identify your particular goals for the project, address the budget, and discuss planning your dream home over a phone call. Site visit appointment is booked after this call.
Phase Two	Color direction and schematics are presented to you, where you can provide feedback, ask questions, and fine tune the direction of the design.
Phase Three	Presentation: We develop the furniture, fabric and finish selections for our detailed design presentation. We take your feedback to make any revisions, and finalize our fabric & finish selections for your custom design proposal.

Our Process

Phase Four

Proposal and Procurement: This stage involves meeting on site with specialty contractors, our workroom and all necessary trades for your project. Here we begin gathering estimates specific to your project scope and put together a detailed cost proposal. Upon approval, you'll receive a request for payment to begin the ordering and procurement phase. From that point on, the ball is our court. We carefully manage the entire logistics process through installation giving you an effortless home renovation experience!

Phase Five

Installation: We have established close working relationships with the trade vendors that we bring into your home. We manage all of the deliveries, contractors and installations. We are here to handle all logistics and any product issues that may arise. Your trust is important to us. We want to ensure you are thrilled with our service and have an exceptional experience!

Next Steps

The project begins with a signed contract and a paid engagement retainer. We typically develop the initial design concept within 2–3 weeks, followed by a 6–8 week design development phase.

Procurement, trade coordination, and installation occur simultaneously and generally take around 12 weeks to complete, though this can vary based on the size and scope of the project and some can be done in a shorter amount of time.

Every project is unique—smaller updates may take just a few weeks, while larger, full-home transformations can span several months to a year. The timeline ultimately depends on the complexity, scale, and specific needs of your project. From the start, we'll provide a clear, detailed timeline so you always know what to expect. Our team prides itself on keeping everything on track and managing all the logistics for you.

Communication

Between meetings and site visits, we primarily communicate via email to keep everything streamlined and organized, as our team manages multiple projects at once. We are always happy to schedule a call to connect and send Friday updates every week to keep clients in the loop on what's being worked on and what to expect next.

Let's dream together!
